**Compulsory internship in the Bachelor's degree programme Philos-  
ophy, Politics and Economics**

According to the current Bachelor's examination regulations, it is mandatory to prove an internship period of a total duration of at least three months in the course of studies of the Bachelor's degree programme Philosophy, Politics and Economics. For the three-month traineeship and an internship report to be written on it, 14CP (credit points) will be credited (regulation for the examination in the Bachelor's degree programme of the Faculty of Philosophy and Economics of the HHU dated 22.10.2018, § 12, page 9).

However, we also recommend and support the implementation of longer traineeships to enable the associated experience.

Julian Pöhling
